 Representation Learning Lab (222), Computer Engineering Department,
Engineering Faculty, University of Kurdistan, Sanandaj, Iran

BRIEFLY

I am a Ph.D candidate at the University of Kurdistan, focusing on representation learning with an emphasis on multi-label learning, multi-view, and adversarial training. I am also a member of the Algebraic Machine Learning Team (AML team), a group dedicated to exploring fundamental methodological advancements in supervised, semi-supervised, and unsupervised machine learning, as well as representation learning theory. Additionally, I serve as a thesis advisor to master's students at UOK.

I hold a Master's degree in Artificial Intelligence from the same university, where I worked with Dr. Fardin Akhlaghian, Dr. Alireza Abdollahpouri and Dr. Amjad Seyedi on projects involving matrix factorization and adversarial training for various applications, such as multi-label classification, multi-view clustering, and link prediction. My educational background also includes a Bachelor's degree in Software Engineering from Razi university.

RESEARCH INTERESTS

- Machine learning, Representation learning, Numerical Linear Algebra
- Deep Learning, Matrix factorization, Adversarial training, Complex network
- Multi-label learning, Multi-view learning, Feature selection, Link prediction

EXPERIENCE

Thesis Advisor Present	Artificial Intelligence (graduate), UNIVERSITY OF KURDISTAN, SANANDAJ, IRAN, (Sep 2023 - Present) > I am currently advising two master's student. > Topics : representation learning, matrix factorization. > problems : data representation, data clustering.
Researcher Full-time	Representation Learning, UNIVERSITY OF KURDISTAN, SANANDAJ, IRAN, (Sep 2020 – Present) > Topics : matrix factorization, generalization and adversarial training > applications : multi-label classification, multi-view clustering, anchor graph, link prediction and feature selection.

EDUCATION

Ph.D	Artificial Intelligence, UNIVERSITY OF KURDISTAN, SANANDAJ, IRAN, (Sep 2022 – Present) > Thesis title : Enhanced Scalable Clustering Models for Multi-View Data. > Supervisor : Dr. Fardin Akhlaghian Tab > Courses : advanced machine learning, advanced data mining, reinforcement learning, machine learning in graphs, non-negative matrix factorization and special topics in artificial intelligence.
Master	Artificial Intelligence, UNIVERSITY OF KURDISTAN, SANANDAJ, IRAN, (Sep 2020 – Sep 2022) > Thesis title : Link Prediction by Adversarial Deep Nonnegative Matrix Factorization. > Supervisor : Dr. Alireza Abdollahpouri and Dr. Fardin Akhlaghian Tab > Advisors : Dr. S.Amjad seyedi > Courses : machine learning, statistical pattern recognition, neural networks, advanced artificial intelligence, computer vision, digital image processing, complex network and special topics in artificial intelligence.
Bachelor	Software Engineering, RAZI UNIVERSITY, KERMANSHAH, IRAN, (Sep 2004 – Sep 2009) > Project title : Design and implementation of tourism site of Kurdistan province Software.
High-School	Mathematics, SHAHID BEHESHTI (SAMPAD) HIGH SCHOOL, SANANDAJ, IRAN, (Sep 2000 - Jun 2004) > A four-years education in basic mathematical-physics science.

PUBLICATIONS

- 2026 | **Contrastive calibration on consensus and complementary multi-view representations**
N. Jabari, S. A. Seyedi, **R. Mahmoodi**, and F. Akhlaghian.
Pattern Recognition, Volume 176, Feb 2026, 113291.
- 2024 | **Enhancing Link Prediction through Adversarial Training in Deep Nonnegative Matrix Factorization**
R. Mahmoodi, S. A. Seyedi, A. Abdollahpouri, and F. Akhlaghian.
Engineering Applications of Artificial Intelligence, Volume 133, Part F, July 2024, 108641.
- 2024 | **Mutli-Label Feature Selection with Global and Local Label Correlation**
M. Faraji, S. A. Seyedi, F. Akhlaghian, and **R. Mahmoodi**.
Expert Systems with Applications, volume 246, 2024, pp. 123198.
- 2023 | **Link Prediction by Adversarial Nonnegative Matrix Factorization**
R. Mahmoodi, S. A. Seyedi, F. Akhlaghian, and A. Abdollahpouri.
Knowledge-based Systems, volume 280, 2023, pp. 110998.
- In Prep | **Anchor-based Multi-Label Feature Selection via Nonnegative Matrix Factorization**
R. Mahmoodi, M. Faraji, and F. Akhlaghian.
- Anchor-based Multi-View Clustering with Nonnegative Matrix Factorization**
R. Mahmoodi, and F. Akhlaghian.
- Auto-encoder Multi-label Feature Selection by Nonnegative Matrix Factorization**
N. Moradi, **R. Mahmoodi**, M. Faraji and F. Akhlaghian.

COMPUTER SKILLS

Operationg Systems	Microsoft Windows
Word processing & Presentation	Office suites and $\text{\LaTeX}$
Development Tools	Pycharm, Jupyter Notebook, Colab
web design	HTML, CSS

PROGRAMMING LANGUAGES

2020 – present	Python , PyTorch, NumPy, Pandas, Networkx, scikit-learn and matplotlib
2020 – 2022	MATLAB , linear algebra and visulaziation
2004 – 2010	C++ C# , Software Ebginereng and Web development

NATURAL LANGUAGES

English	● ● ● ○ ○
Kurdish	● ● ● ● ●
Persian	● ● ● ● ●

STRENGTHS

- > Problem-Solving
- > Collaboration, Team Work and Communication
- > Adaptability and Continuous Learning
